Hip	GOOD via OFA	GOOD via OFA	PASSING
Elbow	NORMAL via OFA	NORMAL via OFA	PASSING
Cardiac	NORMAL via OFA	NORMAL via OFA	PASSING
Thyroid	NORMAL via OFA	NORMAL via OFA	PASSING

**Please note, the final results of health testing for the puppies cannot be determined at this time - only predicted based on the parentage results. Von Hohenhalla Dobermans recommends all puppies with breeding potential to be fully health screened including, but not limited to: DNA, Hip, Elbow, Cardiac, and Thyroid testing at 24-months of age.*
