Cardiac	NORMAL via OFA	NORMAL via OFA	PASSING
Thyroid	NORMAL via OFA	-	PASSING

**Please note, the final results of health testing for the puppies cannot be determined at this time - only predicted based on the parentage results. Von Hohenhalla Dobermans recommends all puppies with breeding potential to be fully health screened including, but not limited to: DNA, Hip, Elbow, Cardiac, and Thyroid testing at 24-months of age.*
